SPECIAL AWARD RECOGNIZES WYBRON, INC. FOR QUALITY OF INNOVATION

PLASA06 Award For Innovation Applauds Wybron's InfoTrace Lighting System During Global Event Showcasing Latest Trends In Lighting, Sound, Rigging and Staging Technologies

Colorado Springs, CO – September 12, 2006 – Wybron, Inc., one of the world's premier providers of entertainment and architectural lighting, today announced its recognition by the PLASA06 Awards For Innovation for the quality of design, concept and development of its InfoTrace Lighting System. The InfoTrace System is a ground-breaking lighting system that utilizes Remote Device Management (RDM) for the control and management of Digital Multiplex (DMX) controlled lighting devices, such as color changers, moving lights, conventional lights and dowsers. InfoTrace was launched on September 5, 2006.

At the annual PLASA Show held in London, Matthew Griffiths, CEO of PLASA, presented Wybron with a special award recognizing InfoTrace's contribution to the technological advancement of the art of lighting. Keny Whitright, Chairman and Founder of Wybron, accepted the award, which commends Wybron as one of the premier providers of impressive design and development work in entertainment, event, corporate, architectural and installation lighting.

"We are honored to receive this special award from PLASA and are thrilled that our InfoTrace system has paved the way to such an achievement," said Whitright. "Previous PLASA award winners have become industry leaders, and we fully expect InfoTrace to secure that product position in the lighting field."
