**WYBRON ANNOUNCES PRODUCT TRAINING**

Colorado Springs, CO – February 12, 2007 – Expanding our commitment of collaborating with customers, Wybron is pleased to extend an open invitation to all end users and dealers to attend product-training seminars. We will hold the seminars in Wybron's Colorado Springs facility.

Four product-training sessions are currently planned throughout the year. Each four-day session covers in-depth product training led by Wybron veteran, Ken Fasen. During the first two days, we will cover the award-winning InfoTrace system and its components, including the Coloram IT, CXI IT, Eclipse dowers, InfoChip and RDM systems. On days three and four, we will cover installation and use of the Autopilot II performer tracking system.

Attendees will also be able to request training for any other Wybron current or discontinued products. Attendees may choose to participate in the first two-day sessions or all four days. We will provide lunch every day and on Tuesday and Thursday evenings, Wybron management will host an attendee dinner. We look forward to your participation in our training sessions. Please make your reservations as soon as possible.

**Current Session Dates:**

March 19 & 20 – InfoTrace  
March 21 & 22 – Autopilot

May 21 & 22 – InfoTrace  
May 23 & 24 – Autopilot
