POWERHOUSE CHURCH LIGHTING DESIGN TEAM POSITIONS WYBRON TO BEST SUPPORT HOUSE OF WORSHIP MARKETSPACE

Colorado Springs, CO – September 24, 2007 – Wybron, Inc., a leader of entertainment, houses of worship and architectural lighting technology, today announced that Terry Taylor and John Tabor have joined Wybron to cement its ability to best serve the house of worship market's lighting needs. Taylor, former head of lighting designs at New Life Church and Tabor, assistant lighting designer at New Life, are two of the country's foremost experts on lighting the worship space. By joining Wybron's team, Taylor and Tabor will propel the company's potential to help churches across the country to enhance members' worship experience.

"I am thrilled that these two successful and high-profile church lighting experts have joined Wybron to support our focus in this vertical market," said Larry Turner, CEO of Wybron. "With Terry and John, Wybron is already improving its role of providing churches with the best possible lighting fixtures and retrofit products that benefit the emotional process of worshipping."

"Wybron truly reflects the best of what a lighting manufacturer can deliver to the house of worship space," said Taylor. "Because John and I have worked together as a lighting design team and as consultants to churches of all sizes, we are extremely enthusiastic about bringing our knowledge to Wybron to help it reach its goals in this market we know so well."

- more -

As manager of New Life Church's lighting department for 10 years, Taylor was responsible for lighting systems design, programming and operation, maintenance and repair. He designed, installed and programmed lighting for various spaces on New Life's campus, including The Tent, The Theater and The New Worship Center. In addition to coordinating the church's events for its 14,000 members in Colorado Springs, Taylor has designed and managed other worship events, such as Life Giving Leadership Conference, The Four Square Church, The Gathering and Compassion International's 50th Anniversary Celebration.

From 2004 to 2006, Taylor developed and instructed the lighting course for the Enter Worship Conferences. In 2004, Taylor completed High End Systems Certified Technician Program. He is a graduate of Denver Technical College with an Associates Degree of Applied Science and Electronics Engineering Technician.

As assistant lighting director for New Life Church, Tabor was responsible for customizing, rigging and troubleshooting the church's extensive lighting systems in its different worship spaces. He also was responsible for running the lighting consoles and working with the church's lighting volunteers. Prior to joining New Life, Tabor was the sound engineer for Waimea Music in Kona, Hawaii and was a Youth Pastor/Technical Director responsible for arranging church youth departments, events and concerts around the country. He holds a Video Production Degree and graduated Discipleship Training School from University of the Nations in Kona.

Taylor and Tabor have designed corporate events and numerous retreats for youth groups and well known musicians through a consulting service they founded to assist church clients around the nation with their lighting, video and sound design needs. They bring that background to Wybron to expand the company's house of worship consultative services.

About Wybron, Inc.

Wybron is advancing the art of lighting through collaboration with its customers across the entertainment, houses of worship and architectural markets. The company consistently develops state-of-the-art, award-winning solutions. Recognized as one of
