### **Wybron Launches Outdoor BP-2 Beam Projector**

Colorado Springs, CO – June 11, 2007 – Wybron, Inc., a leader of entertainment, houses of worship and architectural lighting technology, today announced the launch of its Outdoor BP-2 Beam Projector. This new fixture is designed specifically for outdoor applications and is based on Wybron's successful BP-2 Beam Projector designed for theater applications. The Outdoor BP-2 is IP65 rated and has all the light characteristics of the original BP-2. It is designed to prevent leakage in any outdoor lighting project regardless of the weather.

Built entirely of aluminum with stainless steel fasteners, the Outdoor BP-2 can be lamped with a 800W tungsten or 150W discharge source. This outdoor beam projector produces an extremely intense soft edge, narrow 10-degree beam of light several times more intense than an ordinary spotlight of similar wattage. It also features variable focusing capabilities.

The Outdoor BP-2 was originally designed at the request of lighting designer Howard Brandston for the Triskel Arts Centre in Cork, Ireland. Mr. Brandston was sourcing a unique lighting effect that could take advantage of the large amount of rain the region receives. "The Outdoor BP-2 produces a great beam of light with a unique ability to make raindrops sparkly like diamonds," said Mr. Brandston. "Wybron did a great job of turning around the outdoor projector's design to meet my specific needs and requirements. Wybron was capable of quickly delivering all of my units, as well."

“It was a fun project that allowed us to work closely with Howard and his team to develop a rugged beam projector that will hold up under extreme weather conditions,” said Larry Turner, Wybron CEO. “We are pleased that we could provide this uniquely designed unit to help Howard realize his artistic vision for the center’s outdoor projects.”

The Outdoor BP-2 Beam Projector is the perfect fixture for outdoor theatrical applications, theme parks and architectural applications.

### **About Wybron, Inc.**

Wybron is advancing the art of lighting through collaboration with its customers across the entertainment, houses of worship and architectural markets. The company consistently develops state-of-the-art, award-winning solutions. Recognized as one of the world’s leading innovators in the lighting field, the company’s products are used in Broadway shows, including A Chorus Line, Beauty and the Beast, Chicago, Lion King, Spamalot and The Producers and in Las Vegas Blue Man Group, Cirque du Soleil KÁ and Spamalot. As well as the entertainment fields, houses of worship and commercial architects, Wybron also serves cruise ships, theme parks and casinos throughout the U.S. and across the globe.
